

Take Me Over

Take me over, take me over
Where the sea is so wide
Take me over, take me home again
Carry me with the tide (with the tide).

White horses charging, deep green and foaming,
Oceans roaring, wind is high
My heart's fearing, hope is fading
I can't see the harbour-side (harbour-side).

Take me over, take me over
Where the sea is so wide
See me safely, hold me closely
Til' we reach the other side (other side).

My boat is (so very) small
And the waves wash so high.
